Information Disclosure Statement

The information disclosure statement (IDS) submitted on March 1, 2005 was filed after the mailing date of the Notice of Allowance on 12/2/04. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

The following is an examiner's statement of reasons for allowance: the prior art reference 5,427,739 (Meserol et al.) fails to teach or suggest a reagent chamber component between a barrel component and a results window component. In Meserol et al. the reagent container (46) is in a space (chamber) between the upper unit (14) outer wall and support member (38). The space (chamber) is positioned adjacent the sample receiving chamber (22), which is considered to be equivalent to the claimed barrel, not ***between***, as claimed. Further, Meserol et al. does not teach or suggest a reagent chamber which moves from a closed position to an open position when the reagent chamber component is rotated from a pre-use position to a use position. Nor does Meserol et al. teach or suggest a core component including a test ***strip***.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David A. Redding whose telephone number is 571-272-1276. The examiner can normally be reached on Mon.-Fri. 6:00 - 3:00.

Art Unit: 1744

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Crispino can be reached on 571-272-1226. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
